Go-to-Market & Marketing Strategy

Fiscal Year 2025 | Prepared by: Office of the CMO

Author: Sofia Delgado, Chief Marketing Officer

Distribution: Executive Team, Marketing Leadership, Board Strategy Committee

1. Executive Summary & Strategic Intent

FY2025 marketing strategy is anchored around three strategic imperatives: (1) accelerating enterprise pipeline in the AI/ML data infrastructure segment, (2) expanding NexaCorp's brand authority in the emerging "Enterprise AI Fabric" category, and (3) driving international expansion with dedicated campaigns in EMEA and APAC.

Total marketing budget approved for FY2025 is \$184 million, representing 23.3% of projected revenue — consistent with our 3-year trend of reinvesting aggressively in growth. We project generating \$1.42 billion in qualified pipeline, a 28% increase over FY2024, with a blended pipeline-to-closed ARR conversion rate of 22%.

5. Competitive Positioning

5.1 Perceptual Map & Positioning

NexaCorp positions itself at the intersection of enterprise-grade reliability and AI-native innovation — a combination we call the 'Enterprise AI Fabric' positioning. This framework differentiates us from legacy data warehouse vendors (high reliability, low AI-nativity) and point-solution AI startups (high AI-nativity, low enterprise reliability).

Table 5.1 — Competitive Positioning Matrix

Vendor	Enterprise Reliability	AI Nativity	Go-to-Market	Market Position	Category Claim
NexaCorp	High	High	Strong	Category Leader	Enterprise AI Fabric
CloudVision Inc.	High	Medium	Strong	Legacy Leader	Cloud Data Warehouse
Syntellia Group	Medium	High	Medium	Emerging	AI Data Platform
Orbis Technologies	Medium	Medium	Medium	Challenger	Hybrid Cloud Data
DataStream Co.	Low	High	Weak	Niche	AI/ML Infrastructure
LegacyDB Enterprise	High	Low	Strong	Declining	Enterprise Database

5.2 Messaging Framework

Our core messaging hierarchy for FY2025 is structured as follows:

Table 5.2 — Messaging Hierarchy by Audience

Audience	Core Message	Key Proof Points
CXO / Board	"NexaCorp is the Enterprise AI Fabric — the trusted foundation for AI-powered business transformation."	Business outcomes, risk reduction, competitive advantage
CIO / CDO	"NexaCloud unifies your data estate across cloud, on-prem, and edge — with enterprise governance built in."	Architecture, integration, compliance, scalability
VP Data / Analytics	"Accelerate time-to-insight by 4x with NexaCloud's AI-native analytics and 3,800+ pre-built integrations."	Speed, integration breadth, analyst productivity
Data Engineers / Architects	"Build, deploy, and monitor enterprise data pipelines with sub-50ms latency and 99.99% uptime guarantees."	Performance, reliability, developer experience

Audience	Core Message	Key Proof Points
Security / Compliance	"Meet all 47 global data compliance frameworks — automatically — with NexaCorp's built-in data sovereignty controls."	GDPR, HIPAA, SOX, PDPA, audit trail

6. Digital Marketing & Demand Generation

6.1 Website & SEO
